## Court Receives Traffic School Enrollment Request (FCC804)

### Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to receive a traffic school enrollment request from an integration partner who is attempting to dispose a citation with a status of *traffic school*.

- The notification message sent by the integration partner to the trial court contains the traffic school enrollment information (e.g., CCMS case number and participant).

- The response message sent by the trial court to the integration partner indicates whether the enrollment request has been accepted or rejected. If the request is accepted, traffic school information is returned (e.g., CCMS case number and traffic school "complete by" date).

### Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There is no business response to this exchange.

### Error Handling

If the trial court does not successfully receive and process the incoming enrollment request message, the integration partner will receive an error message with an error code and error reason.

### PROBABLE INTERESTED INTEGRATION PARTNERS

- Traffic school vendors

### RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Traffic School Completion Notification (FCC801), which the trial court uses to receive traffic school completion notices, which follows the enrollment request data exchange (FCC804).
- Court Receives Traffic School Extension Request (FCC802), which the trial court uses to receive traffic school extension requests, which may follow the enrollment request data exchange (FCC804).

For more information about this and other data exchanges, contact integrationpartners@jud.ca.gov

## Additional Information

- A single message is sent for each traffic school enrollment request.

- The response message to this exchange is sent immediately upon receipt and processing by CCMS.

- Both the success and error response messages must be sent as separate messages using the formats defined in this exchange.
